

To whom it may concern

It is with great honour and confidence that we can confirm that Royal African Kultivation (Pty) Ltd has been running effectively and with great success since we were given our section 22C(1)(b) of the Medicines and Related Substances Act of 1965 license from you on 18 May 2022.

Royal African Kultivation (Pty) Ltd specializes in the cultivation of premium medical grade cannabis on a mass production scale. We are also determined to keep progressing from strength to strength as a South African cannabis pharmaceutical facility and establish a reputable name on the international market.

Our aim is to consistently cultivate and supply cannabis strains of the highest quality and esteemed certification of analysis. Royal African Kultivation (Pty) Ltd aims to do this by implementing highly refined and specialised standard operating procedures as well as defined innovative growing methods.

Our indoor facility has been designed to focus on achieving idealistic controlled environments to enhance each crop's quality and productivity within their environment. Our facility can accommodate the full growth cycle from cannabis seed to sale. Royal African Kultivation (Pty) Ltd has a passionate and knowledgeable team. Our entire team prides themselves with integrity to each cannabis plant grown within our facility. Royal African Kultivation (Pty) Ltd aims to ensure that our clients can purchase medical cannabis with the utmost confidence and trustworthiness.

Royal African Kultivation (Pty) Ltd is a proudly South African business that strives to keep expanding exponentially in the future. We believe that we have achieved an EU GMP standard. Therefore, we look forward to obtaining certification to reinforce that standard. As we have created an innovative and personalised growing method our team remains very motivated in harmonising compliance, legal obligations and EU GMP standards and regulations.

Our vision is to spearhead Royal African Kultivation (Pty) Ltd to be a proud pioneer in the medical cannabis industry. We hope that this will map not just Royal African Kultivation (Pty) Ltd but South Africa into the international market.

Royal African Kultivation (Pty) Ltd hopes to be a world-renowned medical cannabis cultivation facility. And thus, we aim to do this by displaying a pinnacle of transparency, high quality product, and consistency with our customers for the duration of our working relationship.
